Common Name	Description
Bartlett	#1 pear worldwide. Large fruit; white, sweet flesh; vigorous grower; self-fruitful but produces better when planted with Beurre d'Anjou or Bosc.
Beurre D'Anjou	Large fruit with buttery-textured, white flesh; good for fresh eating; pollinated by Bartlett.
Bosc	Large fruit with long, tapered neck; white, juicy flesh with rich, slightly acid flavor; good for fresh eating and cooking; pollinated by Bartlett.
Clapp's Favorite	
Comice	Large, round fruit; rich, sweet, creamy flesh. Self-fruitful but produces better when planted with Bartlett.
Hosui	Medium to large fruit; juicy, sweet flavorful flesh; crisp like an apple; Asian pear can be eaten right off the tree (no after-harvest ripening necessary).
Luscious	Small to medium fruit; very sweet and juicy
Seckel	Medium to small fruit; creamy white flesh with very sweet flavor; good for preserving; semi-dwarf growth; self-fruitful.
Twentieth Century	Medium, round fruit; firm, juicy, creamy white flesh; Asian pear can be eaten right off the tree (no after-harvest ripening necessary).

20' x 20' when mature. Plant 20' apart.
